Notes :

Pesticides notes:

1. The test report merely reflects the test results of the consigned matters of the client and is not a certification of the legitimacy of the related products.
2. The report is for risk management/export use only.
3. The test result over LOQ is summarized in the table. All test items and LOQ are listed in appendix.
4. “*” Indicates lower limit of analytical determination of announced test method.
Please refer to the latest announcement if there is a test method revision.
5. All items in this testing report is based on the request from client and we are responsible for that.
6. This method is not applicable to the determination of Benfuracarb, Pymetrozine and Nitenpyram in samples like tealeaf, dry vegetable, dry fruit and dry herb.

Remark

The pesticides scan analysis was performed in an oversea affiliate assessed as competent.
